

RecordPoint Retrieval

Record Retrieval Co. · Window Jul 1, 2026 to Sep 30, 2026 · Data through Sep 25, 2026 · As of Sep 29, 2026
Archive rule: 24 calendar months from invoice date, with a warning for invoices within 90 days of that date (to Dec 28, 2026).
Quarter still open: data runs through Sep 25, 2026, so the prior quarter is compared over the same number of days (Apr 1, 2026 to Jun 26, 2026).

BILLED THIS QUARTER

\$8,476.10

106 invoices

OPEN UNPAID, Q3

54.7%

58 invoices, \$4,449.85. Peers 21.1%, all 19.8%

TICKETS PER 100 REQUESTS

19.3

21 tickets. Peers 13.8, all 9.9

VOLUME

Top carriers this quarter	Requests
Harborline Mutual Insurance	38
Granite Shield Insurance	19
Keystone Auto Group	14

By type: Authorization 52, Subpoena 34, Letter Request 16, Court Order 7. Pending from this quarter: 48 awaiting payment, 3 received, 2 in review.

MONEY

Billed	\$8,476.10 (106)
Open unpaid	\$4,449.85 (58) · 54.7% vs peers 21.1%
Cancelled	4 · 3.8% vs peers 4.7%
Main cancel reason	Request withdrawn (3 of 4)

SUPPORT

19.3 tickets per 100 requests vs 13.8 for peers (5 record retrieval co. requestors) and 9.9 for all other requestors.
Top reasons: Portal login (8), Status inquiry (7), Other (2); 4 other reasons with 1 each.

WHAT THE DATA SUGGESTS

- More than half of this quarter's invoices are still open: 58 of 106 (54.7%), compared with 21.1% for other record retrieval companies. All-time, 338 invoices (\$26,466.60) are open.
- Portal login is the top ticket reason (8 of 21 this quarter; 85 of 163 all-time), and 35 open invoices (\$2,235.10) are on requests that had a login ticket. A 15-minute portal walkthrough with their billing team would likely help with both.
- The archive dates are the near-term risk. 13 invoices (\$761.80) reach theirs by Dec 16, 2026, and a larger wave of 58 invoices (\$4,399.80) follows from January through March 2027.

CX COMMENTS

What's working

What's not

Upcoming improvements (API, etc.)

Peers = other Record Retrieval Co. requestors, same window. Quarter figures count invoices and tickets dated Jul 1, 2026 to Sep 25, 2026. Aging covers every open invoice, all time.

AGING: ALL OPEN UNPAID INVOICES

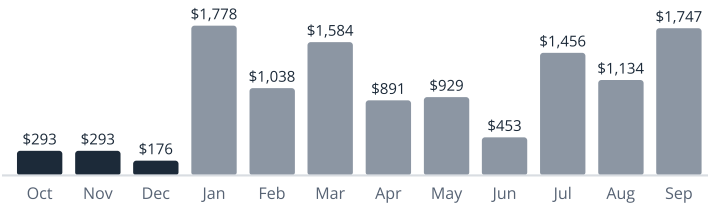

Invoice year	Invoices	Amount
2024	14	\$820.40
2025	180	\$14,048.70
2026	144	\$11,597.50
Total	338	\$26,466.60

Already past the archive date: INV-75923 (request REQ-46829, \$58.60) reached it on Sep 27, 2026.

13 invoices (\$761.80) reach the 24-month archive date by Dec 16, 2026.

After that they're archived, cancelled and destroyed, and the records would have to be requested again. The first is Oct 3, 2026. Each one is listed in the appendix.

Archive countdown: dollars reaching the archive date each month, next 12 months (dark = inside the 90-day warning window)

Morrison & Pratt LLP

Plaintiff Attorney · Window Jul 1, 2026 to Sep 30, 2026 · Data through Sep 25, 2026 · As of Sep 29, 2026

Archive rule: 24 calendar months from invoice date, with a warning for invoices within 90 days of that date (to Dec 28, 2026). Quarter still open: data runs through Sep 25, 2026, so the prior quarter is compared over the same number of days (Apr 1, 2026 to Jun 26, 2026).

62 invoices

OPEN UNPAID, Q3

11.3%

7 invoices, \$539.00. Peers 19.3%, all 19.8%

TICKETS PER 100 REQUESTS

14.3

9 tickets. Peers 7.6, all 9.9

VOLUME

Top carriers this quarter	Requests
Harborline Mutual Insurance	16
Granite Shield Insurance	13
Keystone Auto Group	11

By type: Authorization 29, Subpoena 19, Letter Request 11, Court Order 4. Pending from this quarter: 5 awaiting payment, 3 received, 1 in review.

MONEY

Billed	\$5,062.25 (62)
Open unpaid	\$539.00 (7) · 11.3% vs peers 19.3%
Cancelled	4 · 6.5% vs peers 2.7%
Main cancel reason	Duplicate request (4 of 4)

SUPPORT

14.3 tickets per 100 requests vs 7.6 for peers (15 plaintiff attorney requestors) and 9.9 for all other requestors.

Top reasons: Duplicate request (3), Status inquiry (2), Missing pages (2); 2 other reasons with 1 each.

WHAT THE DATA SUGGESTS

- Duplicate requests are the one thing to fix. All 4 cancelled invoices this quarter were duplicates (cancel rate 6.5% vs 2.7% for other plaintiff firms), and "Duplicate request" was the top ticket reason (3 of 9). All-time, 69 of their 74 cancelled invoices were duplicates.
- Payment is healthy: 11.3% of this quarter's invoices are open, below the 19.3% peer rate, and no invoice reaches its archive date before January 2027.
- Volume is up 28.6% (63 vs 49 over the same number of days), with tickets at 14.3 per 100 requests vs 7.6 for peers. Fewer duplicates would likely bring both the cancel rate and the ticket rate down.

Morrison & Pratt LLP: no invoices past or inside the warning window.

INTERNAL

Notes for CX (do not send)

- **Data quality:** the profile check reported: none found. Exports hold 6,813 requests, 5,936 invoices and 771 tickets, received Sep 23, 2024 to Sep 25, 2026.
- **Export vs as-of gap:** the exports stop at Sep 25, 2026; archive deadlines are measured from Sep 29, 2026. Any payment made in the 4 days between is not reflected. Refresh the invoice export before sending a statement.
- **Archive rule is not final.** These cards use 24 months with a 90-day warning. If the rule changes, rerun with `--archive-months` / `--warn-days`; every date on the cards moves with it.
- **1 RecordPoint invoice already past its archive date:** INV-75923 (\$58.60, archive date Sep 27, 2026). It still shows Open in the export. Confirm whether it was archived before asking RecordPoint to pay it. It is left off the statement of open invoices for that reason.
- **Quarter open-unpaid rates include invoices only days old.** The median time to payment for both requestors is 10 days, so late-September invoices are open by default. The peer rates carry the same effect, so the comparison holds, but the absolute rates will fall as September invoices get paid.
- **Login-ticket link is all-time:** "35 open invoices had a login ticket" matches every RecordPoint portal-login ticket ever opened (85) to open invoices, not just this quarter's.
- **Peer pools:** Record Retrieval Co. peers = 5 requestors (188 requests this quarter). Plaintiff Attorney peers = 15 requestors (341 requests). "All other" = 31 requestors, excluding both cards.
